مجلات غارتگر

بر اساس داده‌های اسکوپوس از میان ۲۱۳۱۵۳ مقاله‌ای که از ۱۹۹۰ تا تاریخ ۴ اردیبهشت ۱۳۹۲ به اسم ایران در این پایگاه ثبت شده، بیشترین مقاله (۱۶۴۸ مقاله) در مجله‌ای با نام

Australian Journal of Basic and Applied Science

منتشر شده است، در حالی که یک بررسی سطحی روی این مجله نشان‌دهنده بی‌اعتباری آن است. به عنوان مثال این مجله با وجود داشتن نام استرالیایی تنها یک نفر از استرالیا در هیئت تحریریه آن حضور دارد که آن اسم نیز اسمی جعلی است و آن فرد وجود خارجی ندارد. در مدت شش سال ایرانیان مبلغ ۲۹۶۶۴۰ دلار برای انتشار مقاله‌هایشان به این مجله پرداخت کرده‌اند.

نویسندگان مقاله در مجلات بلک لیست (251 مجله، 2013)

- متوسط سنی نویسندگان حدود ۳۸ سال بوده و برای هر مقاله به طور متوسط حدود ۳۵۰ دلار ارز پرداخت شده است. ملاک اصلی اعتماد نویسندگان به مجلات ادعای آنها برای نمایه شدن در پایگاه‌های معتبر بوده است و شیوه اصلی آشنایی نویسندگان با این مجلات توصیه استاد و یا همکار بوده است.

Who publishes in “predatory” journals?

- Statistical analyses verify that each group of journals has a distinct author population. Those who publish in “predatory” journals are, for the most part, **young and inexperienced researchers from developing countries.** We believe that economic and sociocultural conditions in these developing countries have contributed to the differences found in authorship between “predatory” and “nonpredatory” journals

About Global Impact Factor

The Global Impact Factor (GIF) provides quantitative and qualitative tool for ranking, evaluating and categorizing the journals for academic evaluation and excellence. This factor is used for evaluating the prestige of journals. The evaluation is carried out by considering the factors like peer review originality, scientific quality, technical editing quality, editorial quality and regularity.

We perform the in-depth analysis method. The acceptance and rejection rates of journals

This system is designed to enable you to fully upload your manuscript using electronic technology, where it will be sent electronically to the Editor-in-Chief for assignment and electronic review. If at any time during the uploading process your system fails (i.e. your system crashes or is interrupted before finishing the process), the information you have entered will be saved. Please log back on, click on the manuscript title, and continue from where you left off. If you wish to restart the entire process, please delete the draft by clicking on the trash can icon. When you have successfully uploaded your manuscript and figures, you will be issued with a manuscript number. Please quote this number in all future communications about your manuscript.

Please enter your manuscript's title in the box below, even though you will later upload the entire manuscript in the Manuscript Upload process. S1,1 uses this data in a searchable database to expedite the review process. Please copy and paste your manuscript title into the box below.

S1,1 requests your title not exceed 200 characters.

To copy a title from your manuscript, highlight the title in your word processing program, press "Copy" in the program, then in the box below, press "Paste." Many characters and formats (such as Greek letters, mathematical symbols, and italics) will not translate from word processing to internet format; consequently, we need to substitute web-compatible codes so that they can be viewed correctly on web browsers. We have provided a palette for the insertion of special characters; please note the instructions below. Proofread your work carefully. When you have entered the title, press "Save and Continue."

Abstract

S1,1 requires that you submit your manuscript's abstract in the field below, even though you will later upload the entire manuscript in the Manuscript Upload process. The data collected is used in a searchable database to expedite the review process. Please copy and paste your manuscript abstract into the appropriate box.

To copy an abstract from your manuscript, highlight the abstract in your word processing program and press "Copy" in the program. Then press "Paste" in the box below. Many characters and formats (such as Greek letters, mathematical symbols, and italics) will not translate from word processing to internet format; consequently, we need to substitute web-compatible codes so that they can be viewed correctly on web browsers. We have provided a palette for the insertion of special characters; please note the associated instructions. Proofread your work carefully. When you have entered the abstract, press "Save and Continue."

There is a limit of 170 words for your complete abstract submission.

You may enter your responses in the text areas at the bottom of the screen.

Decision Letter

This is the minor revision letter. Since it's a revision letter, it will show up in the author center in association with the .R1. This letter includes the reviewer's comments automatically for review by the author.

Dear Dr. Biesecker:

Experts in the field have carefully reviewed your manuscript entitled **This is My Manuscript Title in Bold** with Special Character Alpha - a and I am happy to report that they recommended acceptance of your paper. However, minor concerns were raised that require your attention before the paper can be accepted in its final form. Accordingly, I invite you to respond to the reviewers comments and recommendations. A decision on acceptability of your manuscript will be made only after the revised version has been reevaluated. To revise your manuscript, please log on to ManuscriptCentral, www.ScholarOne.com, and enter the Author Center where you will find your manuscript title followed by R1. To view the reviewers' comments, click on the "View Comments and Respond to Reviewers" button. In addition, you should receive these comments in this email, however, to provide responses to the reviewers' comments, you must access "View Comments and Respond to Reviewers" as the space allotted for you to provide responses is in that screen. You will be unable to make revisions directly by using the originally submitted ManuscriptCentral version of your manuscript. Instead, you should revise your manuscript using a word processor and then resubmit the revised version, ensuring that it is marked R1. Use red font instead of black to indicate the revised portions of your manuscript. Once the revised version is ready, log on to ManuscriptCentral, enter the Author Center, and click on the title of the manuscript being revised. This action will take you into the Draft Center, where you can resubmit your manuscript in the same fashion as the original version. If needed, follow the instructions provided by the Draft center. Unless we hear from you about this paper within 6 months, we will presume you have withdrawn the manuscript from consideration by ScholarOne.

Outline

- **What is ISI**
- **Knowing journals**
- **Writing**
- **Choosing the target journal**
- **Before you submit**
- **Peer review**
- **Revise and resubmit**

Peer review

- between 1-3 referees, normally 2
- Double-blind
- 20 days – a few months

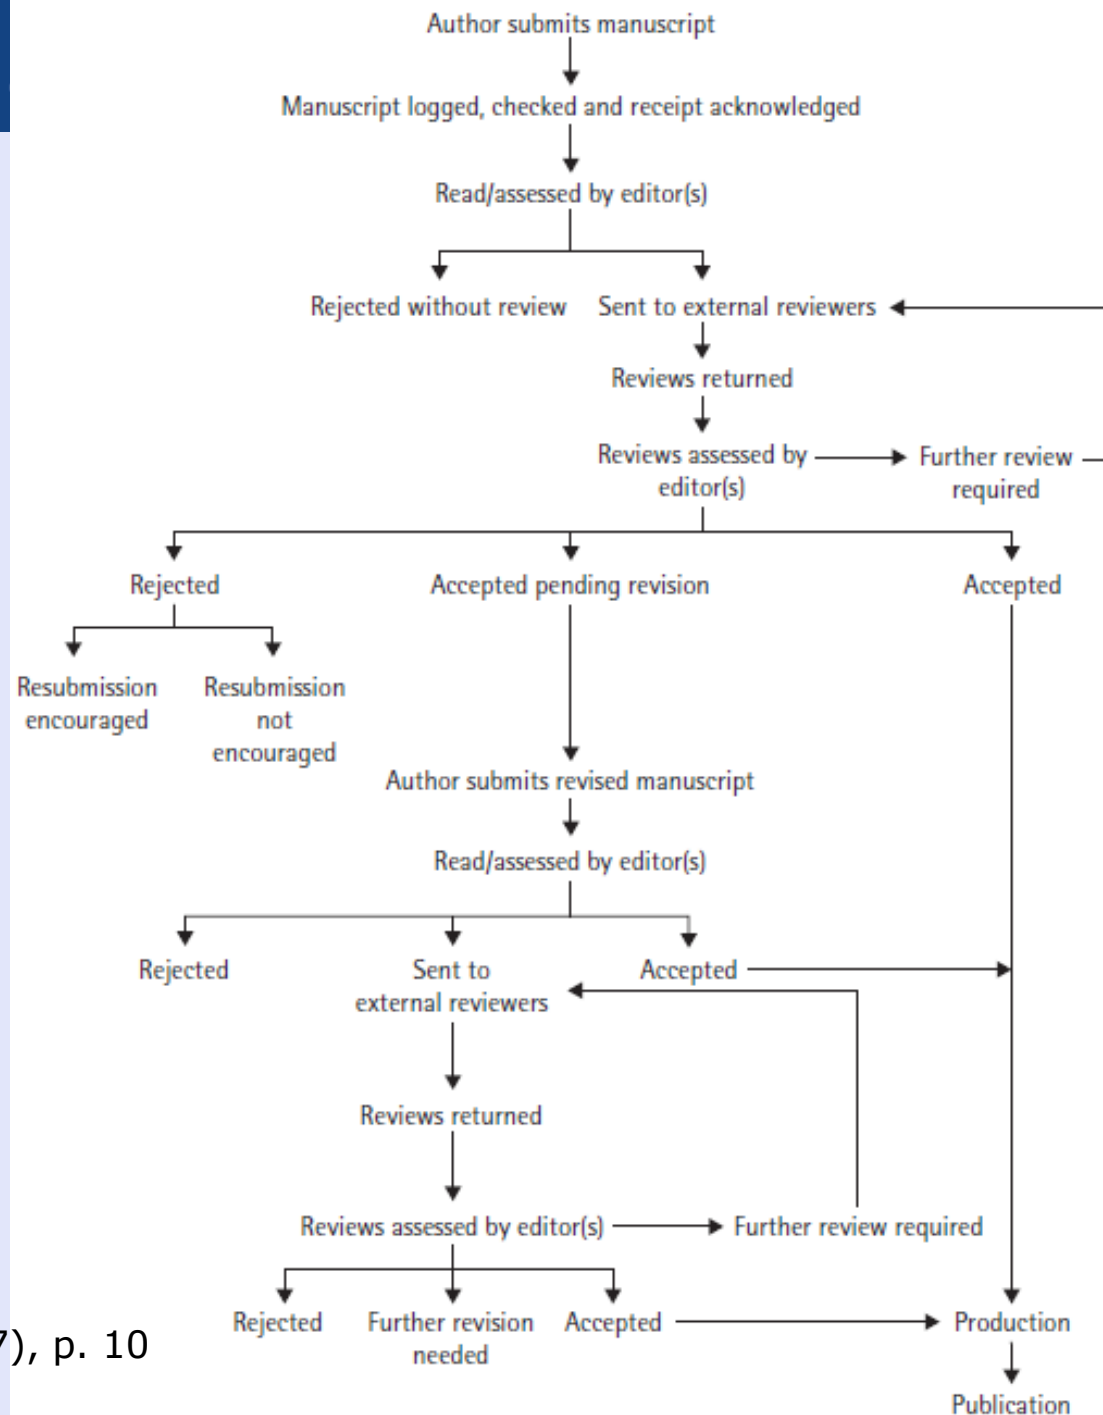

Review results

- You have waited a few months and now you receive a decision letter from the editor

Accept, reject, conditional...

- Rejection is a fact of life, everybody has got rejected once

Reviewers look for

- اصالت Originality – what's **new** about subject, treatment or results?
- ربط Relevance to and extension of existing knowledge
- روش Research methodology – are conclusions valid and objective?
- نگارش Clarity, structure and quality of writing – does it communicate well?
- استدلال Sound, logical progression of argument
- مفاهیم و کاربردها Theoretical and practical implications (the 'so what?' factors!)
- منابع Recency and relevance of references
- **Adherence to the editorial scope and objectives** of the journal

Referees

- Their comments are not personal
- They are helping you for free
- Listen to their suggestions, unless you really have a good reason not to do so

Pure accept

Very very rare

almost never in many fields

Revise minor problems and resubmit

Articles in this category have been conditionally accepted, pending minor revisions specified by the reviewers in their attached reports.

Revise major problems and resubmit

- has been provisionally accepted for publication. However, the referee recommended major revisions.
- I am happy to inform you that your paper ms, "Scholarly e-book usage in UK universities..." has been provisionally accepted for publication. However, the referee recommended major revisions. We will reconsider the paper after the revision.

Rejected but will entertain a resubmit

Articles in this category have been rejected, but the editor indicates a willingness to read a revision.

example

- Hamid,
I have had three reviews done of your article (all by astronomers or scientists) - they are a little bit harsh.
- One says "The article is competent but really I didn't see anything original. .
- Another simply says "the paper could be improved in clarity, ...
- However, the main referee wrote the following...
The quality of this paper is very poor....
- I have copied this reply to David and perhaps you might like to consider your next course of action. I myself quite like the article and think it would be a different paper from the ones we normally receive for TEL. I don't think it should be rejected, but it clearly does need some further work and tidying up
- so please let me know whether you will revise it.

Rejected and dismissed

This is an absolute rejection, with reviewers' reports attached to back up the editors' claim that the article "is not publishable" or "is not ready for publication" or "cannot be published at this time" or "does not meet our standards for publication" or "is not right for us."

Examples

- I have, therefore, decided to decline this paper but hope you will continue to keep JAL in mind for your more substantial usual efforts.
- Dear Hamid, Reviewers' comments on your work have now been received. You will see that they are advising against publication of your work. Therefore I must reject it.

Rejected by editor

This is an absolute rejection without any reviewers' reports attached.

"best of luck!"

An initial review of your article has made it clear that this submission is inappropriate for *Information Research*.

the paper is purely descriptive and lacks any theoretical grounding for the work. Nor does the analysis provide any theoretical perspective.

What if rejected?

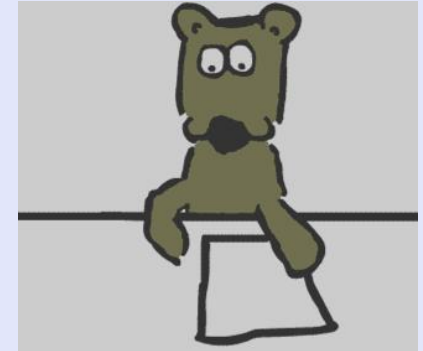

- Don't get disappointed
- examine why
- make changes, find another target, or
- make significant change?
- Improve and submit somewhere else
- Maybe even to a better journal

Submitting a revision

- If a revised manuscript is required, you will receive an email which contains the suggested changes.
- Delete any files that you do not wish to keep and upload the new files as before.

Outline

- **What is ISI**
- **Knowing journals**
- **Writing**
- **Choosing the target journal**
- **Before you submit**
- **Peer review**
- **Revise and resubmit**

How to handle a 'revise & re-submit'

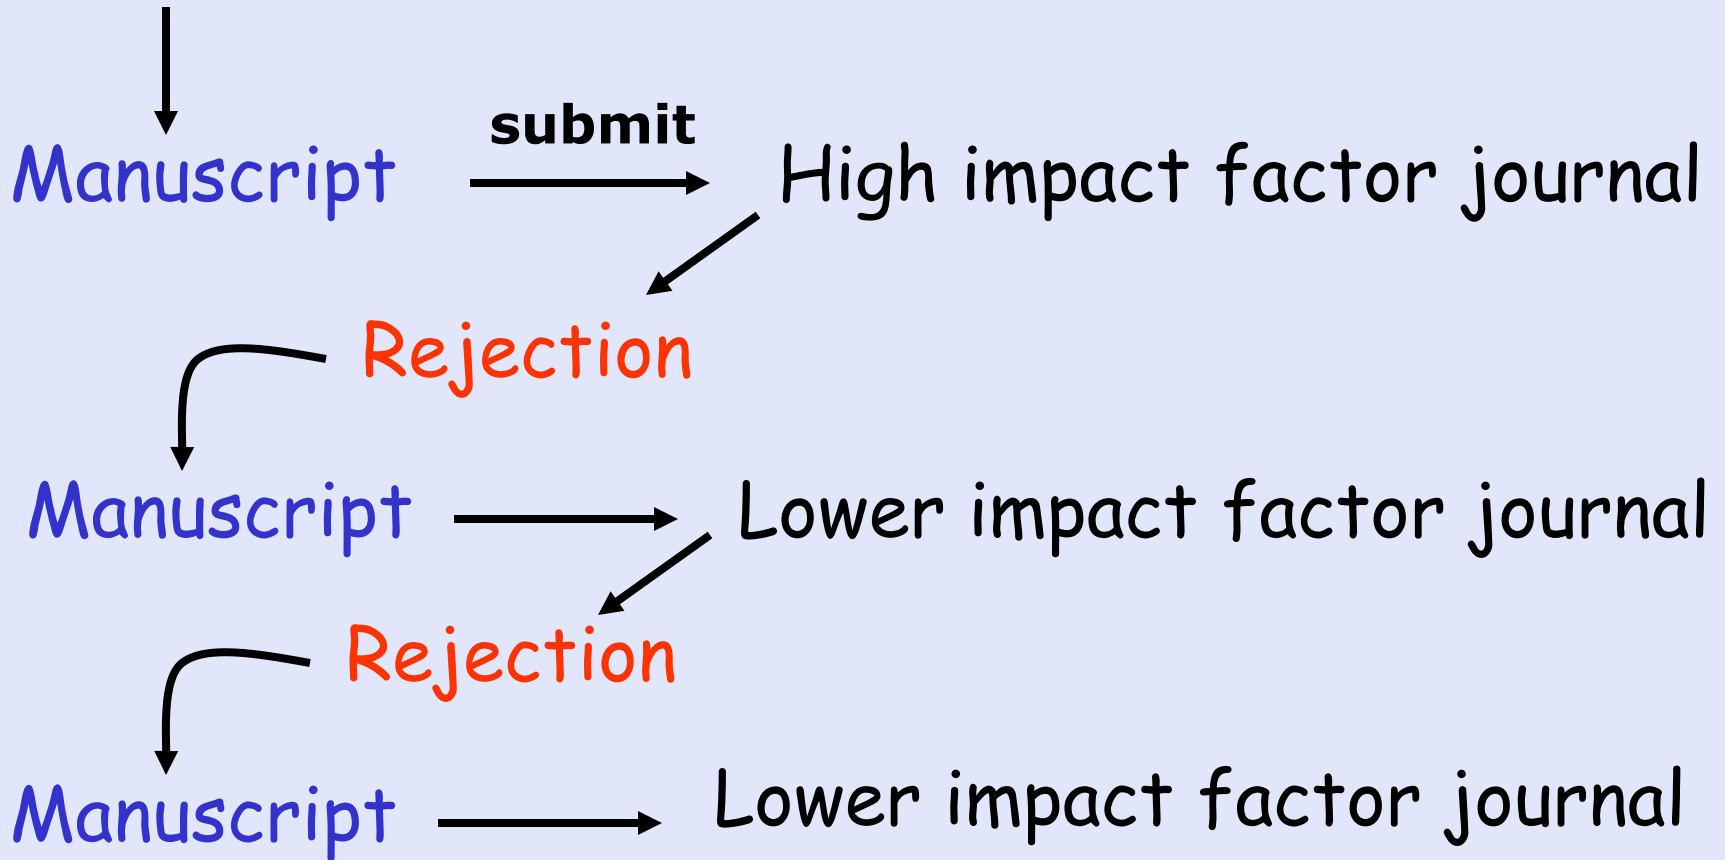

- **Be polite (it's a small world)**
- **Follow the recommendations as much as possible (referees volunteer their time, they are trying to be helpful!)**
- **Follow the editor's advice, instructions**
- **Address each of the points made by each referee**
- **Return the revised MS as soon as possible**

ایرادهای رایج از نظر داوران

- انتخاب مجله اشتباه
- نبود مبانی نظری
- عدم پیروی از الگوی مجله
- طولانی بودن مقاله
- نگارش نامطلوب (سبک، گرامر، ابهام، استفاده زیاد از لیست، عدم توجیه درست، تعمیم ناپذیری...)
